ABOUT US

AIforHealth 2026 is a global conference series and innovation platform that explores how artificial intelligence is revolutionizing healthcare. Designed as a hybrid model of quarterly virtual webinars and a flagship in-person summit, the conference is curated to inspire, educate, and connect the next generation of AI health leaders.

Our Purpose

We believe that technology alone doesn't change the world—people do. That's why we created a space where clinicians, AI developers, academic researchers, startup founders, investors, and health policymakers can come together, challenge ideas, and co-create the future of medicine.

What Makes Us Different

Interdisciplinary Focus: Medicine, Data Science, Ethics, Regulation, and Product

Hybrid Accessibility: Global webinars + local impact through physical summits

Interactive Format: Use-case demos, panels, and real-world case studies

Outcome-Oriented: Abstracts, publications, investor pitches, and awards

Emerging Voices: Special emphasis on early-career innovators and researchers from developing countries
